

SURECHLOR4500

MULTI MINERAL SYSTEM

✓ Automated Control System
Full wireless control with gemini pump**

✓ Neva Run Dry™ (Pump Protection)

✓ Variable Sanitiser Output

✓ Lighting & Auxilliary controls**

Poolrite's new S4500 combines intelligent automated software with a user friendly interface to provide unparalleled water care technology.

The S4500 MMS is the culmination of Poolrite's experience with both magnesium and sodium salts.

Poolrite developed the Magnapool Hydroxinator* over a number of years. The technology behind this research has been combined into the S4500 MMS, to allow seamless operation in both NaCl and MgCl pools.

Fully self cleaning, the S4500 requires minimal maintenance, when matched with the Poolrite Gemini pump. The S4500 gives you wireless remote control of all pool operations including lights.**

Engineered using heavy duty components and a premium Allchlor electrode the S4500 is perfectly suited to the harsh Australian climate.

**Only in conjunction with a gemini pump and compatible equipment.

*The names Magnapool & Hydroxinator were trade marks of Poolrite P/L until 2012, subsequently these trademarks belong to Zodiac P/L.

Warranty

✓ 5 Years Warranty
3 years full warranty plus 2 years pro rata on cell

Features

- ✓ Automated Control System
Full wireless control with gemini pump**
- ✓ Neva Run Dry™ (Pump Protection)
