## “S” series filters

# Industrial strength polymer media filters

Thousands of installations over the last 33 years bear testament to the quality and reliability of Poolrite “S” Series filters.

### Award Winning V2000

#### Exclusive to Poolrite filters

- Over moulded gaskets - No spider gasket blow outs
- 50mm ports for greater water flow
- Large diameter valve for greater water flow and quieter operation
- Domed top cover prevents debris build up around valve stem for easy operation and longevity
- Fitted with 50mm plumbing unions allowing quick connection and simplified servicing

#### S9000

- Heavy duty 50mm multi-port valve for the most demanding residential or commercial installation

### Warranty

- ✓ 10 Year filter tank
- ✓ 1 Year on all other components

Poolrite recommends using

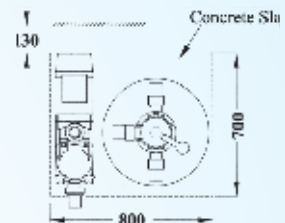

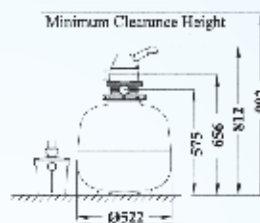

### Features

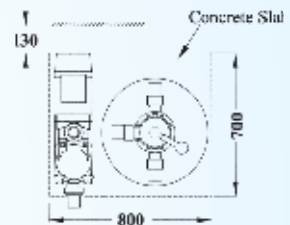

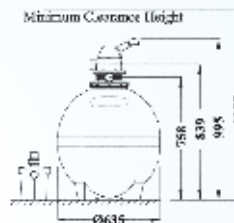

- ✓ One piece seamless rotationally moulded tank designed for maximum strength
- ✓ Made from high density polyethylene for strength & durability
- ✓ Clever designed dispersion inlet overdrain for smooth even flow of water into the filter tank
- ✓ Later underdrain design ensures maximum flow for fast and efficient backwashing which increases time between backwash cycles
- ✓ All non-corrosive construction suitable for all types of sanitation
- ✓ Australian design & manufacture
