Key Product Features & Benefits

AquaLink M8, The Intelligent Choice
The Zodiac AquaLink M8 Control System puts control of your whole backyard paradise at your fingertips. Adjust spa temperature, turn on water features, monitor chlorine generation and so much more. The AquaLink M8 is more than just a control system it also safeguards all your pool and spa equipment. With built-in features like automatic heater cooldown, self-monitoring freeze protection, and pool cleaner safety delay, virtually eliminating any concerns about equipment protection.
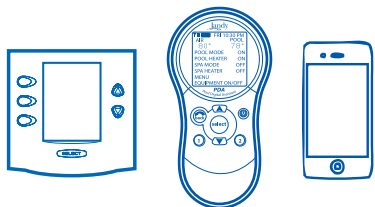

Control Anywhere Anytime
The iAquaLink Wi-Fi module gives you the power to manage all pool and spa equipment, backyard lighting and more from anywhere in the world at anytime, plus you can have a variety of control panels or remote controls at your home. Adjust water temperature, dim the lights or change the colour depending on your mood, all while sitting in your spa with friends. Or you can access any feature from the office or jobsite and have it everything ready for you when you get home.
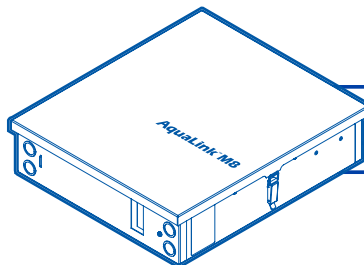

The Choice is Yours
With AquaLink M8 you can chose either the PDA waterproof handset or the wall mounted One Touch panel or a combination of both systems. No matter what, there is an AquaLink M8 for every application – pools, spas, pool and spa combinations, custom pools and spas with separate equipment.

Product Specifications
- iAquaLink™ ready
- Control at least 8 devices
- Control up to 4 valve actuators
- Pool only, pool and spa, and dual system
- Available as PDA or One Touch panel models

iAQUALINK READY | CONTROL AT LEAST 8 DEVICES | CONTROL UP TO 4 VALVE ACTUATORS | POOL ONLY OR POOL AND SPA
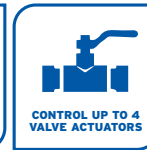

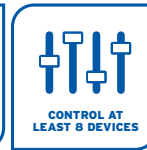

Quick Installation
AquaLink M8 is equipped with a bank of power outlets for your products to be easily connected, this helps save on additional installation charges usually associated with a control system. Just get your electrician to hardwire with 240VAC power and then plug your products into any of the 6 x 10A or 2 x 15A outlets.
