

Multi eClock

QUICK SET UP GUIDE

Clock Set up

Press and hold 'DISPLAY' and 'SETUP'

Press '-' to change the hour and '+' to change the minutes

Time is in 24hours

Memory Clear

Press and hold 'SETUP' until **CLR** appears, this will clear any previous settings

Timer Setup

Press 'SETUP' until you reach the desired start time (in 30 min increments), then press the '+' to activate that time. So at 06:00 press '+', then at 06:30 press '+' the timer will activate from 6am to 6:30am.

To not activate the time, keep scrolling through the time.

Set Up Check

Press the 'DISPLAY' to show the programmed times. END indicates the last step.

If timing is incorrect, repeat the setup.
