

POSI-CHLOR[®]

SALT WATER CHLORINATOR

SMART TECHNOLOGY FOR HEALTHIER, CLEANER POOL WATER

Keep your pool water clear and inviting with electrolytic chlorine generation – the easiest, most effective and convenient way to maintain your pool. Simply adjust the output to achieve the precise level of chlorine. Posi-Chlor does the rest, automatically producing a steady stream of chlorine for softer, silkier pool water that's free of bacteria and other contaminants. Nothing could be easier.

KEY FEATURES

- Adjustable chlorine production by high-efficiency switched mode power supply
- Automatic switch-off owing to lack of water flow.
- Automatic switch-off owing to the accumulation of gas in the cell, with automatic restart once the water flow is restored.
- Automatic voltage adjustment depending on the concentration of salt and the temperature, ensuring continuous efficient chlorine production.
- Automatic and adjustable reverse polarity cleaning cycle.
- Battery backed-up time clock with automatic restart.
- Mineral salt compatible.
- 3-Year warranty.
- Available in three configurations; Basic - with convenient adjustment of chlorine output, pH - with an automatic probe-free adjustment of pH, and Advanced - with probes and full automatic control of pH and chlorine (ORP).

TECHNICAL SPECIFICATIONS

Models	Posi-Chlor®-15	Posi-Chlor®-25	Posi-Chlor®-35
Supply Voltage	230-240VAC, 50Hz		
Chlorine Production	15g/hr	25g/hr	35g/hr
Maximum Power	112.5W	187.5W	263W
Cell Current	3.75A	5.75A	8.75A
Protection	IP65	IP65	IP65
Max. Temperature	40 °C	40 °C	40 °C

Temperature Probe (optional)

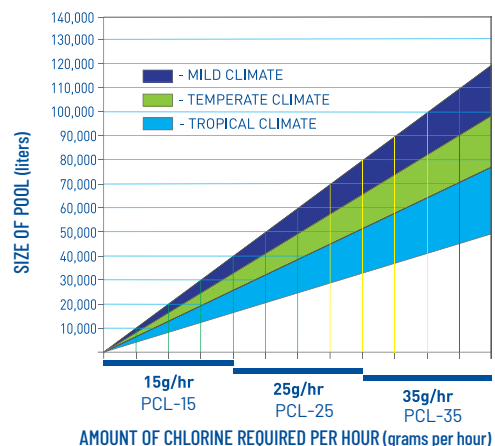

With the addition of a temperature probe, Posi-Chlor can calculate the salt level of your pool.

CHLORINATOR SIZING CHART

Steps to calculate the chlorine output required:

- 1 Determine your pool size (litres).
- 2 Move along the horizontal line until you reach your climate zone.
- 3 Go down to determine the amount of chlorine you require (g/hr)
